Expedited Decisions

If you or your prescribing physician or other prescriber believe that waiting for a standard decision (which will be provided within 7 days) could seriously harm your life, health, or ability to regain maximum function, you can ask for an expedited (fast) decision. If your prescribing physician or other prescriber indicates that waiting 7 days could seriously harm your life or health or ability to regain maximum function, the independent review organization will automatically give you a decision within 72 hours. This timeframe may be extended for up to 14 calendar days if your case involves an exception request and we have not received the supporting statement from your doctor or other prescriber supporting the request, OR the person acting for you files an appeal request but does not submit proper documentation of representation. If you do not obtain your physician's or other prescriber's support for an expedited appeal, the independent review organization will decide if your health condition requires a fast decision.

☐ **Check this box if you believe you need a decision within 72 hours (if you have a supporting statement from your prescribing physician, attach it to this request)**
