Comprehensive Care All in One Plan

Nascentia Skilled Nursing Facility plan will provide you with a Clinical Care Provider, such as a Nurse Practitioner (NP) or Physician Assistant (PA), who will be working with you in addition to your Primary Care Physician (PCP).

The Clinical Care Provider will be responsible for overseeing, facilitating, and coordinating your health care needs and perform physical examinations routinely, and as needed, depending on your health care status.

The Clinical Care provider will work closely with your PCP and the nursing home staff to develop an individualized centered care plan to ensure your health care needs are met. The NP/PA will promote collaboration between your physicians, family, and **Nascentia Skilled Nursing Facility** plan.

How To Enroll
