**For Durable Medical Equipment (DME) vendors who supply incontinence products:**

The Department of Health (DOH) issued an incontinence supply initiative effective September 1st, 2016. DME companies must now ensure that incontinence products that they dispense to Medicaid members meet minimum quality standards put in place by the DOH.

The minimum standards include:

- No plastic (Non-breathable) backed products
- Rewet rate of <2.0g
- Rate of Acquisition (ROA) of <6 seconds
- Retention Capacity >250g
- Presence of breathable zones with a minimum value of >100 cubic feet per minute (cfm)
- Presence of closure system which allows for multiple fastening and unfastening occurrences

Verification that your incontinence products meet minimum standards must be on file with Provider Relations at VNA Options. Verification must be in the form of test results obtained from an independent testing laboratory.

IF your company purchases incontinence products from Twin Med, LLC, the State's new preferred supplier, you do not have to verify incontinence product quality standards. Proof that your products are being purchased from Twin Med, LLC will suffice.

Further, most First Quality and Covidien brands meet minimum quality standards, however, verification for these brands must also be on file.
